news

To Be Updated by Greenlife News

With this very first issue of Greenlife News, a new mass media is born that will be published every three months, in English and German. It is the intention of Greenlife Estates to keep their clients up-to-date and well informed regarding all aspects of the real estate market and related aspects. Greenlife will also be covering new projects and services, future expansion plans and any other local information of interest to our readers. Our clients will receive their issue of Greenlife News via mail and will also have the opportunity to express their opinion or suggestions.

EL LAGO restaurant

Sophisticated interior design coupled with creative cuisine

Located in the Greenlife Golf clubhouse, within the urbanisation of Elviria Hills in Marbella, El Lago Restaurant is framed by a magnificent lake and golf course. This restaurant offers customers a wide culinary choice of an exceptionally high standard. The decór is a subtle combination of metal, wood and leather, thus succeeding in being up beat and contemporary, as well as exuding an air of warmth and hospitality.

The creative Spanish cuisine reflects the attention taken to the smallest detail. El Lago offers traditional yet innovative cuisine, resulting in a superb and healthy menu. There is also an excellent wine list. The restaurant is open every day from 9.00 until noon, serving lunch with sandwiches, light meals and salads. There is an à la carte menu dinner menu.

In short, for discerning diners seeking something exquisitely different, El Lago provides a subtle combination of sophistication, innovative cuisine and top quality service.

Quality Golf 9 Holes Par 3

Ever since Greenlife Golf course opened last May, it has received continually good reports. For example in an article that appeared in the August edition of SUR in English, Greenlife's expansive high quality grounds were compared with the 9 hole golf course at the prestigious Valderrama club.

Greenlife Golf is a 9 hole, regular par 3 and has been designed to ensure that it is equally suited to beginners as well as experienced players. The length of the holes ranges from 88 to 169 metres, with numbers 4, 5 and 9 being the most difficult. This is a golf course of superb quality which has been planted with Bermuda 419 green and Pencross throughout the greens.

The course runs between a pretty artificial lake and varied landscape boasting a wide variety of vegetation. The landscaping has taken into account and respected existing trees and

planted, in addition, more than 200 pines, as well as flowers and shrubs. In total there are more than 400 carob trees, 'washingtonians', pines and olive trees comprising a sense of being in a beautiful orchard setting.

Deluxe facilities

The golf club has a generous parking area for golfers, as well as a pro-shop with first quality products and the most prestigious brands. It is anticipated that Greenlife Golf will soon be recognised for one of the most

modern driving ranges in the Costa del Sol, with 40 practice positions, approach areas, putting greens and practice bunkers. Along with these installations a brand new Shaun Ashley Golf Academy is being planned. Shaun is a professional British Golfer and creator of the educational training technique entitled 'Power Golf'. All this will soon be available to all the members of the golf club, as well as any player wishing to enjoy such a golf course and the facilities.

GREENLIFE GOLF

TENNIS

As part of the golf course and clubhouse facilities, Greenlife Golf members can enjoy two fantastic clay tennis courts. These are orientated towards the north and south. The construction of the courts was undertaken by a specialized company which guarantees the highest possible quality. The opening hours are from 8 am until 8 pm and there are facilities to rent racquets. The management of the club are also planning to organise special golf and tennis events and tournaments as from next January.

FITNESS *centre*

There is a wide choice of sports' facilities at the clubhouse. For example there is the sauna and fitness centre, which boasts panoramic views of the lake and golf course. The fitness centre is equipped with the very latest hi-tech Italian Tecnogym equipment. Next to the gym, separated by large windows, is the swimming pool. This has a jet stream system, allowing swimmers to

swim against running water and practise aquagym. There is also a fabulous Jacuzzi and all the additional facilities you would expect from a top calibre sports centre. The opening hours are from 8 am until 8 pm and these facilities are available for members only.

A Comprehensive Country Club in the centre of Marbella

Golf Rio Real Village

LOS MONTEROS

After the success of Greenlife Village the company has the opportunity to continue and complete the initial concept, creating a comprehensive Country Club. This new Greenlife Estates project follows the premises of all Greenlife projects: good location, top quality construction, a well thought out design, practical distribution, and an expansive landscaped area with gardens and all leisure facilities.

Golf Río Real Village - Los Monteros is considered as being two distinct projects. Altamira and Pueblo del Río plus extensive facilities for leisure pursuits. Altamira is the initial project comprising 56 apartments with sea, golf course and mountain views. On the other side, there is the Pueblo del Río which is distinctive

for its beautiful landscaping. There are 98 apartments here surrounded by lush gardens.

The urbanisation design was inspired by Mediterranean style architecture coupled with traditional rustic design. The architectural studio, González & Jacobson created a design where the residential area is independent from the leisure facilities separated by a walkway, thus creating a beautiful project.

This new project is already being sold and Greenlife Estates continues with the motto: "Location, Quality, Value" which was established at the same time as the company. Since this time, numerous developments have used and proven their loyalty to the Greenlife name.

Pueblo del Río
